

WIZE CODING & ROBOTICS @ MCKECHNIE

WIZE

Computing Academy

PROGRAM

WIZE MOBILE APP DEVELOPMENT (Grade 3 - 7)

Hands-on to Thinkable platform an intuitive, visual programming environment that enables anyone to build fully functional apps for smart phones and tablets. Project-Based Approach, for kids to develop a tangible app by the end of the program.

As part of the projects, kids learn to create prototypes, apply paint, playing speeches, linking features and pages, creating interactive games. No prior coding experience needed.
